PROFILE INFO

To leverage my skills in MERN (MongoDB, Express.js, React.js, Node.js) stack development to design and implement scalable, efficient, and user-friendly web applications. Passionate about building robust backends, dynamic frontends, and seamless integrations. I aim to contribute to innovative projects in a collaborative environment, driving business goals while advancing my technical expertise in modern web development and emerging technologies.

EXPERIENCE

2024- PRESENT

Chakaraparamb, Kochi

Webcastle, web development intern

- Contributed to the development of team projects using React and Node.js
- Assisted in debugging and testing RESTful APIs using Postman.

PROJECT

Blog-Application:

Developed a full-stack blog application using the MERN stack (MongoDB, Express.js, React.js, Node.js) to enable users to create, manage, and interact with blog posts.

Netflix-clone:

A Netflix Clone built with React.js is a front-end-focused project that replicates the look and core functionality of Netflix.

BHIM-UPI:

Developed a static, responsive clone of the BHIM UPI website using HTML and CSS, focusing on modern web design practices and user-friendly layouts.

portfolio:

Designed and developed a personal portfolio website using HTML and CSS to showcase skills and projects

Todo-App:

Created todo application for managing tasks which is build with React, node js, HTML and CSS
